Description

- Weather and waterproof, humidity resistant.
- UV resistant.
- Frost-proof (resistance towards extensive climate changes of -20°C is verified).
- Heat-resistant up to 160°C.
- High resistance to abrasion, shocks, and scratches.
- It will heat less in the sun than a steel or aluminum surface of the same color.
- HPL Table Tops offer unique finishes on a seamless solid surface.

HPL A phenolic board is a versatile material that is used in a range of settings. HPL is fireproof, water-resistant, highly scratchproof and wearproof, easy to maintain and resistant to chemicals and cleaning products.

Custom stain finishes are also available
